

Polished Rod Clamps

Plainsman's Polished Rod Clamps are a high quality, high strength, yet lightweight and easy to use clamp. Available in single, double and triple bolt sizes to handle every well application.

Features

- Indentation style
- Forged steel construction for high strength
- Precision machined parallel faces and perpendicular rod bore
- Zinc Phosphate coating
- Industry leading clamping capacity

TYPES	WORKING LOAD	MAX TEST LOAD	SIZES	BOLT TORQUE	HEIGHT	BODY MATERIAL	SHIPPING WEIGHT
Single Bolt	13,000 lb	32,000 lb	1-1/8" 1-1/4" 1-1/2"	250 lb-ft	2.50"	Forged Alloy Steel	3.75 LBS
Double Bolt	26,000 lb	35,000 lb	1-1/8" 1-1/4" 1-1/2"	250 lb-ft	4.88"	Forged Alloy Steel	7.50 LBS
Triple Bolt	40,000 lb	55,000 lb	1-1/8" 1-1/4" 1-1/2"	250 lb-ft	7.38"	Forged Alloy Steel	11.50 LBS

Ordering Information

1. Determine the working load requirements
2. Specify the polished rod diameter
3. Specify single, double or triple bolt based on working load

NOTES:

1. Clamping capacity for illustrative purposes only. Always use specified bolt torque and working loads.
2. Do not clamp on hard surfaced, or spray metal sections of polished rods as it may not clamp properly or may damage the rod.
